role of intimidator. This is a whole-some resolution, if it means business. Its scope should, however, be so extended as to take in cases of intimidation of Lexow witnesses.

THE DEMOCRATIC REVOLT.

The House and Senate conferees on the tariff bill have agreed to disagree, and the report to that effect will be made to the House to-day.

The Senate, under the lead of Senator Gorman, is obstinately resolved to adhere to the interests of the trusts. The Democratic House and the Democratic Senate stand in an attitude of defiance to the present Administration and the present House are elected by the people and through which the great revolution in the Senate was accomplished. The latter is one of vanity against principle. The Democrats who have deserted their party and united with the Republicans in an effort to continue the McKinley tariff have simply sold themselves to the sugar, coal and iron trusts. Bribery and corruption have done their work. The trust conspirators threaten that if the Gorman bill is not accepted the McKinley tariff shall continue. Many of the Democrats insist that legislation in the interests of the trusts would be worse than no legislation at all.

Meanwhile the bankers and business men of Chicago give voice to the sentiment of the whole business community when they send a telegram to the Senate and the House, saying: "The whole country demands that Congress terminate the pending tariff legislation immediately. Failure to dispose of the question quickly will work irreparable loss and irreparable injury to financial and industrial interests."

These are words of truth. The uncertainty that now hangs over the country is the cause of the paralysis of business, the lack of employment, and all the evils from which we suffer. And Democratic traitors are responsible for it.

TAX DODGERS.

When the greatest of all tax dodgers, the late Jay Gould, was alive, he paid taxes on one hundred thousand dollars worth of personal property. This he inherited from his father, who had paid taxes on one hundred thousand dollars worth of personal property. When Jay Gould died he left personal property to the value of between sixty and seventy million dollars, and a great portion of it was not subject to any tax.

This year the Tax Assessors have fixed the value of the personal property of the Gould estate at ten million dollars. Thereupon the executors and trustees under the will of the late Jay Gould, George J. Edwin, Helen M. and Howard Gould, go into the Supreme Court and plead that they have no taxable personal property. The tax assessors, as they would do business in the Supreme Court, are assessed on the personal property of the estate at that place and pay their tax there.

Three of the executors who swear they live at Tarrytown are assessed this year on one hundred and fifty thousand dollars. The other three are assessed at fifty thousand for all. They pay a total taxation this year of between six and seven thousand dollars.

George Gould now joins the noble army of tax dodgers, and transfers his residence to Lakewood. If he is a tax dodger, he will get off with a personal assessment on fifty thousand dollars, or six hundred and seventy-five dollars tax. The Constitutional Convention is now in session. Ought it to be possible for people to cheat the tax laws in this manner? Does any one believe that the business of the Gould family and estate in Tarrytown and Lakewood is just and honest that their taxes should be paid there?

Ought not something to be done to put a stop to this tax dodging?

STILL THEY COME.

The warning "The Evening World" uttered yesterday in reference to collisions in the river and bay was not spoken too soon. Yesterday, between 8 and 9 o'clock in the evening, the iron steamboat Pegasus left her berth at the foot of West Twenty-third street for Coney Island. She had a light load of passengers, less than a hundred, on board.

When the Pegasus was abreast of the White Star line pier she was run into and badly damaged by the iron steamboat, the Glen, McCullough, which would doubtless have been less of life if the force of the collision had not driven the Pegasus against the White Star dock, where she remained jammed. This enabled Capt. Halsey to get the jammed-up passengers onto the dock across a gangplank.

Of course, there is the customary talk about signals and bells and reversal of engines and misunderstandings and all that. But it is evident there must be gross ignorance or carelessness on the part of the Glen's crew in the navigation of the river. It is not likely that it will remedy this defect during her visit to England.

NEW YORK MAYORS VIA PITTSBURG.

Police business in Pittsburgh may be said to have been quiet. It is the fault of the people who neglect an opportunity for the city's emancipation.

Yesterday's exodus of teenage passengers took away from this country just so many laborers, and as labor is the only source of wealth their departure leaves the country just so much poorer. The popular impression that we can get richer by getting rid of any class of workers is erroneous.

If the railway managers of Chicago believe that they can put an end to unions among the railway employees by adhering to their traditional policy of refusing to "recognize" the unions they are worse than mistaken. They are continuing a policy which must inevitably lead to a renewal of disagreements and strikes.

The thrilling reports of the man-hunting excursion back of Fort Lee, in New Jersey, indicate a confusion in the mind of the hunters on the question of the right to shoot. It is supposed that a criminal is hiding in the woods, and it is taken for granted that it is the privilege of the hunters to shoot him at sight. It is hard to account for the survival of such a delusion in a community otherwise intelligent.

Reports having arisen that witnesses in the new police investigation were subject to intimidation, the Police Board has adopted a resolution declaring for the dismissal from the Department of any member, regardless of rank, who shall be found to have played the

role of intimidator. This is a whole-some resolution, if it means business. Its scope should, however, be so extended as to take in cases of intimidation of Lexow witnesses.
